Entertainment/DJ
Citation for Team - Ambassador Didi Falls

TOGETHER WE PROSPER!!

Kingdom of Kush

About The Founder

Dr. Don Al Kushi

Formerly Known As Don Levy

The visionary behind the restoration of the Kingdom of Kush, the founder of this new country, is the one who proclaimed Bir Tawil on June 13th, 1993, by planting a flag and declaring the territory of Bir Tawil as the rebirth of the historical, legendary Kingdom of Kush as a sovereign nation. He created a country without an invasion, without military aggression or occupation, without colonization, and without a cession from another country or a drop of blood. A new country of peace and harmony. And that's exactly what we are celebrating today, 31 years later. This could not have been possible without the beloved, kind, and generous people of Sudan. Without knowing a word of Arabic or Nubian, having no money, family, or friends in Sudan, upon arrival at Khartoum airport, beautiful Sudanese families immediately welcomed him into their homes, their culture, and their education, shaping him into who he is today. They even blessed him with a name. And that is our beloved brother

Dr. Don Al Kushi, formerly known as Don Levy.

Message from the Founder:

Our past has been successful in many ways, yet we've faced numerous hurdles that we have gracefully overcome, and here we are, stronger. Thirty-one years later, this year presents us with an impactful milestone as we welcome you all to join us collectively on our path forward to further improve and enhance our mission, brightening the horizon for our Royal Kingdom, our nation, and the people of the African diaspora. Together, there's so much we can accomplish, but divided, there's little we can achieve. We go further together, and together we prosper.

— Dr. Don AlKushi
